

Equinefit Dressage Saddles

Equinefit saddles are individually designed and made specifically for each horse and rider combination, taking into account the support, depth, shape and materials chosen by the customer.

"From my 20 years experience of working with different breeds and levels of horses and types of riders, I designed and launched a range of saddles that would allow them to enjoy maximum comfort and optimum performance." Says Rene de Koning, founder of Equinefit.

"I invite you to discover the true potential of your horse."

Every design starts with a consultation to understand your needs and evaluate you and your horse first hand. The final design will be unique - a custom saddle that will offer the best solution for you and the best fit to your horse. Our saddles are competitively priced when compared with their off-the-shelf equivalents and offer all the advantages of being made to your exact requirements. Included in our price is your hand-made saddle, the initial consultation and measuring at your barn, and final fitting.

Your Custom Dressage Saddle

Equinefit is one of the few saddle companies in the world that provides the highest degree of customization possible in saddle making - bespoke* saddle services. Our master saddlers begin by crafting a custom tree tailored for your horse. Equinefit believes that constructing a custom tree is the best approach to obtaining the best saddle possible fit.

***Bespoke** - A British term to mean an item custom-made to the buyer's specification. The distinguishing points are the buyer's total control over the fabric used, the features and fit. Bespoke describes a high degree of customization, and involvement of the end-user, in the production of the goods.

We can create designs with a shorter, deeper seat, and higher knee rolls. Ideally suited to pony riders and for horses with short backs. Also popular for use on breeds such as Frisians and Andalusians because of the straight cut of the flaps which provide a straighter line allowing the shoulder more freedom of movement.

If you are a competitive rider with a deep seat then we can create the classic dressage saddle. Featuring a large teardrop shaped knee roll to provide support while also following the shape of your leg, a round cantle and a close-contact design provide you with a closer connection to the horse. An elite saddle for when you need to achieve those extra marks.

Prices range from around \$4,000 to \$4,500, including consultation and fitting.

You are in Good Company

Debbie Lush competes on Holmegrove Merlin owned by Nikki and Mick Green with an Equinefit saddle.
